About CFG

Charity Finance Group (CFG) is *the* charity that champions best practice in financial management in the voluntary sector.

We have over 2,500 event attendees and finance professionals receiving our updates, and more than 1,300 charity members managing over £19.3 billion (which represents almost one third of the sector's income). Of the charities in membership more than 70 have an annual income of £50m plus, a

significant percentage of the top 100. Most charity finance professionals are responsible for a range of areas within the organisation. Through our events, publications and policy work we provide invaluable support to our members and the sector as a whole.

We do this with the support of our Corporate Subscribers whose combined expertise and knowledge make a significant contribution to our work.

Our subscribers come from a variety of commercial organisations including law firms, accountancy firms, investment houses and many more – each with experience and a vested interest in the charity sector. By becoming a Corporate Subscriber you will have the opportunity to communicate and network with key individuals from this diverse group of charity finance professionals.

Our full charity membership breakdown can be seen in the table below.
